Coats epic is a polyester-wrapped thread with a polyester filament core, ideal where fineness, high seam strength and high temperature stability are required. Epic's specially formulated lubricant delivers excellent sewing performance at low tension under the most demanding of conditions.

**Main Uses:**
- Fashion apparel
- Blouses and shirts
- Jackets and dress slacks
- Lingerie and swimsuits
- Uniforms and workwear
- Jeanswear
- Various leather articles

**Features and Benefits:**
- Coats epic is a high-tech corespun thread that combines a high tenacity polyester filament core with a polyester fibre wrap to make a versatile and reliable thread. Coats epic is ideal for delicate garments as well as jeans and workwear.
- Specially lubricated to deliver outstanding sewing performance in the most demanding applications
- The high strength polyester filament core allows the use of finer thread sizes, giving better seam appearance without compromising seam strength
- Excellent abrasion resistance makes Coats epic ideal for jeans and workwear
- Certified to Öko-Tex Standard 100, class 1, the most stringent class covering baby wear

**World of Coats**
- Coats has been the world's leading thread company for over 200 years and is the only truly global thread supplier.
- With manufacturing plants in over 40 locations and sales and distribution in more than 60 countries, Coats is uniquely placed to serve your thread needs anywhere in the world.
- Our state of the art colour communications management system, Coats ColourTalk®, enables exact sample matching and colour approval almost instantaneously between locations around the globe.

**One colour range. One specification. Worldwide.**
Coats operates to a global specification for Coats epic with quality audited by one centrally located team.
**Polyester Corespun with Polyester Wrap**

**Product Information**

**Physical and chemical properties of polyester corespun:**

**Thermal Properties**
- Melts at 250 - 260°C, softens at 220 - 240°C
- Shrinkage less than 1% @ 150°C

**Chemical Properties**
- Mineral acids: Resistant to most mineral acids
- Alkalis: Essentially unaffected by weak alkalis, but less resistant to stronger alkalis, especially at higher temperatures.
- Organic solvents: Generally unaffected, but soluble in some phenolic compounds.
- Bleaching: Unaffected
- Insects / microorganisms (mildew, rot): Unaffected
- Laundering / dry cleaning: Unaffected
- Moisture regain: 0.4%

**Coats epic fastness properties**

<table>
